SUMMARY

Full-Stack Development student with hands-on experience in building responsive and user-friendly web applications using HTML, CSS, JavaScript, React.js, Node.js, and Express.js. Skilled in developing CRUD-based applications, integrating REST APIs, managing application state with Redux Toolkit, and creating reusable components. Strong understanding of modern web development practices with a keen interest in learning new technologies and solving development problems.

SKILLS

Technical Skills

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design
- Backend: Node.js, Express.js
- Database: MongoDB
- API & Integration: REST APIs, Axios, JSON, CRUD Operations
- Tools: Git, GitHub, VS Code

EDUCATION

ARPIT Institute of Engineering

2025 – 2028

Diploma in Computer Engineering - Pursuing

Red & White Skill Education

Full-Stack Web Development

Professional Course - Currently Pursuing

- Developed responsive and user-friendly web applications using modern frontend and backend technologies.
- Gained practical experience in full-stack application development, API integration, database management, and version control.

PROJECT EXPERIENCE

Movie Library App

GitHub:  Live: 

Technologies: React.js, Redux Toolkit, Axios, Tailwind CSS

- Developed a responsive movie library application with search, browsing, and movie details functionality.
- Integrated REST APIs using Axios and managed application state efficiently with Redux Toolkit.
- Designed a clean and user-friendly interface using React.js and Tailwind CSS.

DataTable / User Management Dashboard

GitHub:  Live: 

Technologies: React.js, Tailwind CSS, JavaScript, Axios

- Developed a responsive user management dashboard with a reusable and interactive data table.
- Implemented search, pagination, user details, and CRUD operations for efficient data management.
- Integrated API-based user data and designed a clean, user-friendly interface using React.js and Tailwind CSS.
